Profile Summary

A versatile professional with experience in **agricultural consulting, tutoring, and web development**. Skilled in problem-solving, communication, and digital solutions, with a strong background in **plant science** and a passion for knowledge-sharing. I combine expertise in agriculture, education, and technology to deliver innovative and impactful results.

Professional Experience

Agricultural Consultant – Akuna Farms (2021 – Present)
Provided consulting on sustainable farming and crop management. Conducted farm performance analysis and developed yield-improvement strategies. Guided farmers in adopting modern, eco-friendly agricultural practices.

Tutor – Private / Institutional (2019 – 2021)
Taught and mentored students, focusing on child education and emotional development. Designed lessons that simplified complex concepts and boosted student confidence. Supported learners in achieving academic success.

Web Developer – Freelance (2022 – Present)
Designed and developed responsive, user-friendly websites. Specialized in React, Node.js, and scalable applications. Delivered digital solutions tailored to client and organizational needs.

Education

B.Sc. Botany (Plant Science) – Nnamdi Azikiwe University, Awka, Anambra State, Nigeria (2011 – 2016)

Certifications

- Child Education & Emotional Therapy – Udemy (2018 – 2019)
- Agricultural Consultation – Udemy (2019 – 2020)
- Web Development – ECR-T, Abia State, Nigeria (2021 – 2022)

Skills

Agriculture: Sustainable farming, crop management, agricultural consulting
Education: Tutoring, child education, emotional therapy, mentoring
Web Development: HTML, CSS, JavaScript, React, Node.js, responsive design
Problem-solving, teamwork, project management
